Digital Transformation & Biomedical Transformation

Prof. Samir El-Masri, PhD
CEO at Digitalization
Professor of Digital Technologies
Digital Transformation Expert
Blockchain Expert

Definition 2

Digital is the convergence of multiple technology innovations enabled by connectivity"

"Digital transformation is the organizational change through the use of digital technologies and business models to improve performance"

- Global Center for Digital Business Transformation

Digitization

Digitization = Digital Change

Digitization = Digital Change

Digitalization

Digitization = Digital Change

Digitalization = Digital Transformation

Digitization = Digital Change

Digitalization = Digital Transformation

Digitalization = Digitization + New Digital Business Models

Roadmap of DT

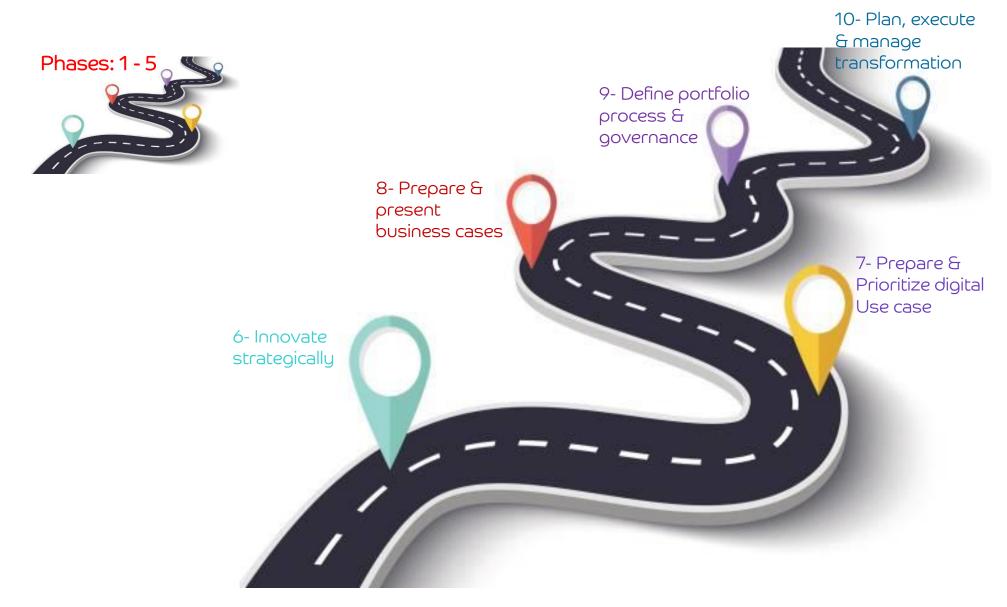

Roadmap 1-6

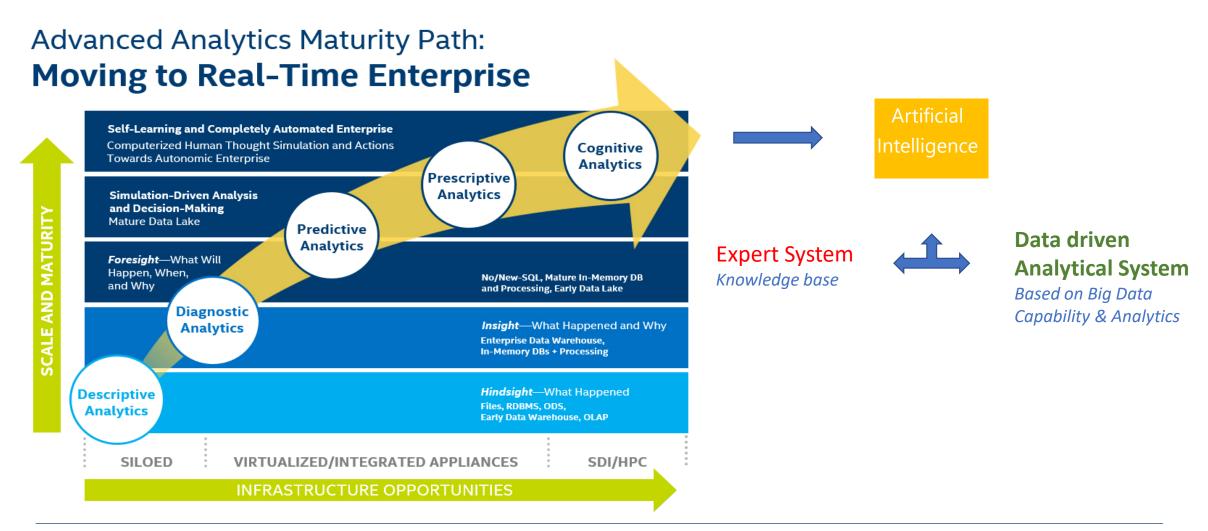

Roadmap 6-10

Analytics and Artificial Intelligence

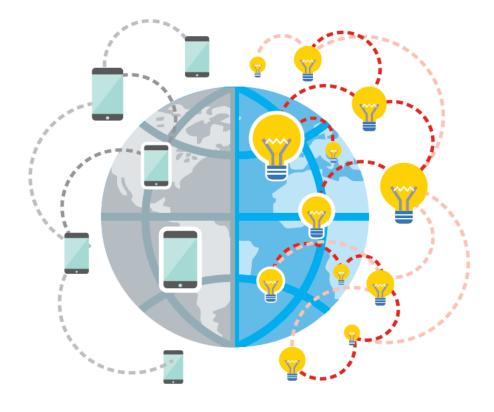

IOT & IIOT

Industrial Internet will bring \$17 Trillion to the world economy by 2030

In 2015 there were about

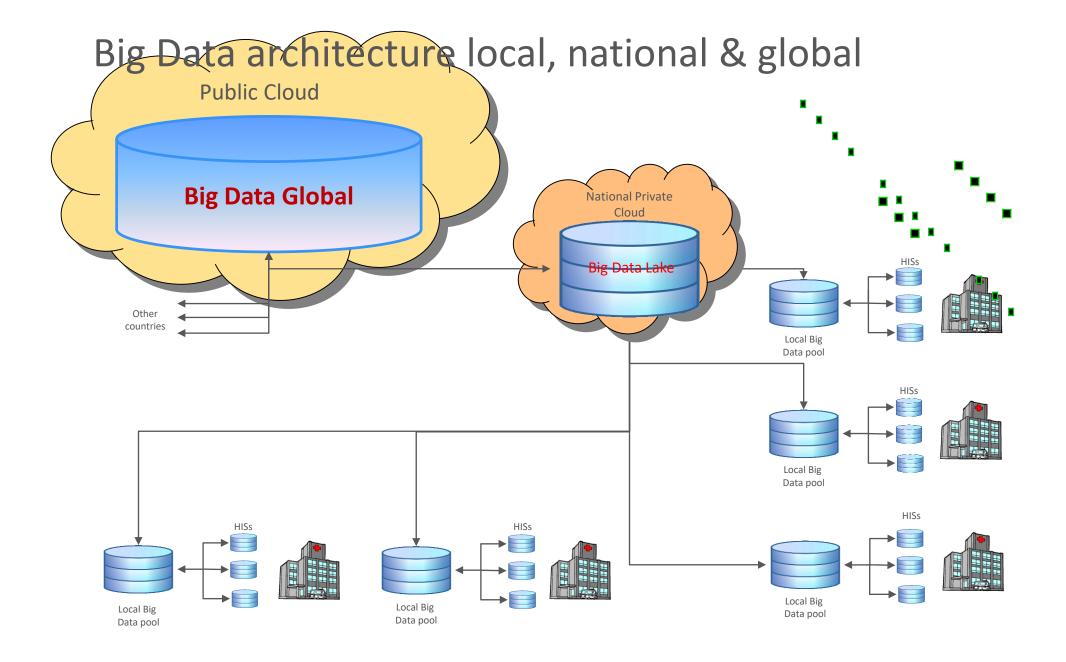

5 billion TOTAL

Internet-connected devices.

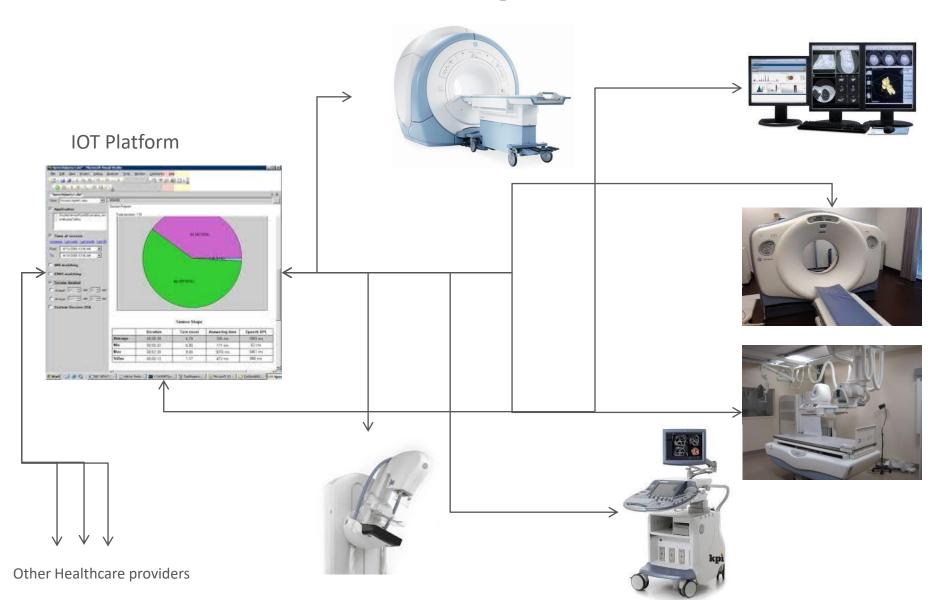

While in 2020, 50 billion machines will be

online.

Industrial IOT (medical images)

Neonatal case

Neonatal monitoring and Data stream

- 72 hours storage
- Data taken on the top of hour

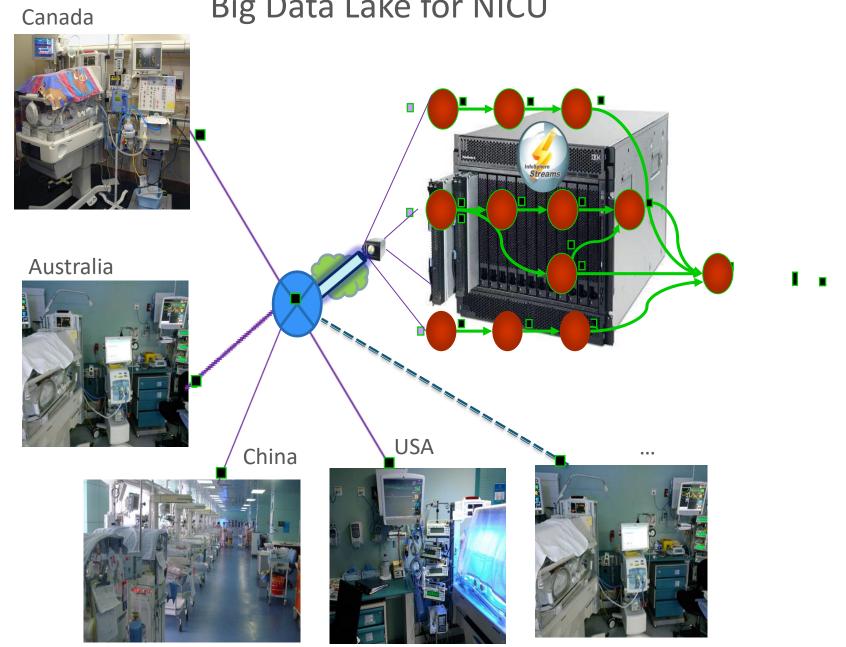

- Heart beats
 - Average 130/minute | 7800/hour
- Breathing
 - Average 35/minute | 2100/hour
- Blood oxygen levels
 - 60/minute | 3600/hour

The APM Journey for Biomedical Engineering

All Assets: Static & Rotating

Get Connected

MACHINE & EQUIPMENT HEALTH

- Connectivity
- Data Management
- · Condition Monitoring
- Data Analysis
- Configurable Dashboards

Securely Connect Equipment

High Probability of Detection and Low False Positive Rate

Data-Rich Actionable Insights

Get Insights

RELIABILITY MANAGEMENT

Machine & Equipment Health Plus:

- Analytics Orchestration
- Analytics Catalog
- Configurable Workflows
- · Event Management
- · Case & Collaboration Management
- Knowledge Management

Confidence Around the Best Possible Outcomes

Assets

Collaboration for Relevant Action

Get Optimized

MAINTENANCE OPTIMIZATION*

Reliability Management Plus:

- · Performance Benchmarking
- Asset Maintenance Strategy/Scenarios
- Financially Optimized Asset Strategy
- Work Scoping, Prioritization, & Scheduler
- Inventory Optimization

Balance Performance and Reliability

Optimize Maintenance with Less Risk

Maintenance Strategy and Outage Planning

APM Outcomes

RELIABILITY

Increase availability and longer asset life

COST REDUCTION

Lower operating costs with greater efficiencies

RISK MITIGATION

Lower operations and financial risk

PROFITABLE GROWTH

Increase production for market advancement
